Hannah D is a DJ and artist from Meanjin (Brisbane), but has long since been a notable resident of Naarm (Melbourne) – a city with a dedicated electronic music community that sees her as a go-to for progressive sounds.

Through both her near universal musical involvement and delicately-blended mixes, Hannah has created a tangible connection around the globe with new age revivalists of the 90s and 00s sound.

Aside from her own personal artistry, Hannah heads up **TSBU (The Space Between Us)**, the successful Australian label which has a local focus on proto sounds within the progressive tech space. The TSBU discography already includes a variety of releases from Mabel, Al Dente, Georgia Bird (IN2STELLAR) and more.

A massive 2024 included some of her biggest performances to date, featured a hotly anticipated tour of Europe that was highlighted with landmark performances at Above Below Festival (UK) & a 5-hour b3b (alongside fellow Weaver artists Mabel & suki) at HORS-SOL Festival (FRA) – followed by an Asia debut which took her to Singapore, Malaysia and Borneo.

Her stature in Australia goes from strength-to-strength, delivering b2b performances with likes of Moopie and Spray in early 2024, and solo performances that stick in the memory of the collective consciousness long after she departs the decks.

Expect Hannah to continue going from strength-to-strength, bringing her euphoric tones to you and your friends wherever you may have the pleasure of encountering her enigmatic DJ sets.
